VIC AVENGER

Destroy the attacking aliens by controlling your laser cannon, before they destroy you. Three exciting rounds, increasing speed, arcade-style action.

KEYBOARD OR JOYSTICK

VIC-1901

VIC AVENGER

Loading the Cartridge and Starting the Game.

1. Turn your VIC-20 OFF before inserting or removing the cartridge.
2. Insert the cartridge (label side up) into the wide expansion port on the back of the computer.
3. Turn the VIC-20 ON. After a second or two, the opening title should appear on the screen. (If the title doesn't appear, turn your VIC-20 off then back on).

Adjusting Screen Position

To center the picture use the CRSR and CRSR keys. Each time you press the CRSR key, the picture will move to the right, and when the CRSR key is pressed, the picture will move towards the bottom of your TV screen. Keep using these two keys until you are satisfied the picture is centered within your screen. (NOTE: Once the game has begun you can not change the screen colors).

Eliminating Screen Flutter

On some TV sets with automatic fine tuning your screen may "flutter" up and down when using a computer or video game. To correct this, hold down the shift key and hit the f7 key. (NOTE: Doing this with a standard TV set may cause the screen to flutter).

STRATEGY

You must destroy the attacking aliens before they destroy you. Use your laser cannon to score as many points as you can, each attacking alien is worth more points to you. Three exciting rounds, with aliens increasing their speed as they force skirmishes.
